

10/20/77

TO WHOM IT MAY CONCERN:

I have known ROBERT BRANAN for the last seven year, during which we have been employed by the State of Maryland as computer programmers and systems analysts. For two of those years we were closely associated in work. A similarity of interests has occasioned frequent and sustained intellectual contacts between us.

I am a graduate of the U.S. Military Academy (1937) and retired from the U.S. Army (Signal Corps) in 1965 as a Colonel after 28 years of service.

I find Robert to be highly qualified for individual study at the undergraduate or graduate level. He is persistent in intellectual pursuits and has good traits of scholarship.
